

## Waste and Renewable Resources Breakfast Seminar – The Technology of Tomorrow

### 24th March 2010, DMH Offices, Gatwick

**Keynote Speaker : Dr Jim Watson, Director, Sussex Energy Group**

DMH Stallard are hosting a Breakfast Seminar for local and regional waste and renewable resources providers.

The Seminar will help you to:

- understand the drivers to renewable resources technological innovation
- understand new emerging technologies
- appreciate the new policies supporting the development of sustainable and low carbon technologies
- gain an insight into how such technological development will impact your business
- identify opportunities for your business
- learn to avoid pitfalls and minimise risk when buying, selling and licensing renewable resources technology
- stay competitive in this fast moving sector

Our keynote speaker, Dr Jim Watson, is a Senior Fellow at the University of Sussex and the Director of the Sussex Energy Group at its Science and Technology Policy Research Unit. He is also the Co-Leader of the Tyndall Centre's Climate Change and Energy Programme.

- He has advised the UK Government as a Lead Expert on Sustainable Energy Management and the Built Environment.
- He has acted as a Specialist Adviser to the House of Commons Environment, Food and Rural Affairs Committee for its inquiries on the Draft Climate Change Bill.
- He has been a Visiting Scholar with the Energy Technology Innovation Policy group at the Kennedy School of Government, Harvard University.

Delegate places for our Breakfast Seminar are **free** so please book your place as soon as possible to avoid disappointment.
